

Juerg Blattner

Juerg Blattner is the Head of Information Systems of Horizon21 since June 2008.

Juerg Blattner has extensive experience in managing information systems for the financial industry. He began his career in 1992 with Swiss Bank Corporation (now UBS), Zurich, Switzerland, as a Junior Trader in equity derivatives trading. He then became Team Head, responsible for managing the proprietary arbitrage portfolio for index derivatives.

In 1998 he joined Centre Solutions, Zurich, Switzerland, a reinsurance company, specialized in alternative risk transfer. As a Transaction Manager he designed re-insurance transactions, which he marketed in Germany.

In 1999 he joined Julius Baer, Zurich, Switzerland, as Head of Business Technology. He built, developed and maintained the global application landscape of the various trading departments. This included managing multi-year IT programs and projects. He led three project and support teams with more than 20 employees. Furthermore, he acted as a Business Analyst in various strategic trading projects.

He holds a degree in electrical engineering from the Federal Institute of Technology (ETH) Zurich, Switzerland, and a dual MBA degree from the University of Rochester, New York, United States, and the University of Bern, Switzerland.

Juerg Blattner was born in 1966. He is married and lives with his family in Switzerland.
